Portfolio

EDUCATION

FERIT Osijek
BSc in Computer Science, 3rd year · Software Engineering track

Technical School Požega
Computer Science, 2020 – 2024

SKILLS

Mainframe
z/OS, COBOL, PL/I, JCL, CICS, Db2

Programming & tools
C, C#, JavaScript, SQL, Git

Web & design
HTML5, CSS3, WordPress, Figma, Adobe Photoshop

Professional
Teamwork in a development team, client communication and negotiation, problem diagnosis under pressure

LANGUAGES

Croatian (native) · English

MARIN SABO

Computer Science Student · IBM Mainframe (z/OS)

PROFILE

Third-year Computer Science student at FERIT Osijek with hands-on development experience on IBM mainframe (z/OS) and 10 IBM mainframe badges, including IBM Z Xplore – All Star. During my internship at CROZ, I managed the Db2 database and z/OS environment the whole development team relied on, while developing in COBOL, PL/I and JCL and contributing to the DevOps modernization of the application. Client work and three seasons of operations support taught me to diagnose problems fast and communicate solutions clearly. I want to build my career on enterprise systems that cannot afford to stop.

EXPERIENCE

Mainframe Developer (Intern) | CROZ, Zagreb 07/2026 – 09/2026

- Developed an application on IBM z/OS as part of a team, using COBOL, PL/I and JCL with CICS transactions and a Db2 database.
- As the team's Db2 and system administrator, maintained the database and z/OS environment the entire development team depended on.
- Contributed to the DevOps modernization: moved the source of truth from the mainframe to Git, with automated delivery of changes from the repository to the mainframe.

Campsite Controller & Operations Support | Maistra d.d. 3 seasons

- Resolved reservation and billing issues in real time during peak tourist season.
- Worked daily with internal reservation and billing systems, where every error directly affects revenue and guest experience.
- Rehired for three seasons.

Freelance Web Development 5+ clients

- Delivered custom websites tailored to client requirements (HTML, CSS, JavaScript, WordPress), from needs analysis to launch.
- Managed projects independently: negotiation, requirements definition and delivery within agreed deadlines.

CERTIFICATIONS

IBM Z Xplore All Star · Advanced · Concepts
IBM Dependency Based Build (DBB) Fundamentals
IBM Mainframe Specialist, powered by Interskill (6 badges)

- Parallel Sysplex – Foundations (z/OS 3.1)
- Mainframe Environment – Foundations 3.1
- Database – Fundamentals 2023
- IBM Z Hardware z17 – Foundations
- Mainframe Security – Foundations (z/OS 3.1)
- Application Programmer – Secure Coding
- TryHackMe – ongoing training in cybersecurity and penetration testing

ACHIEVEMENTS

- Top state graduation exam (Matura) result in my class at Technical School Požega
- Ranked in the top 2% of students in Požega-Slavonia County
- City of Požega Scholarship for academic excellence
- 2nd place at the national competition “Opisujemo sustave” (2024), with maximum points for presentation
- Member of the City of Požega Youth Council (2022 – 2023)
